

Purpose	Track recurring mythic functions as hominid/social systems patterns, while keeping confidence tiers and source status visible.
Guardrail	Not one secret origin story. Compare functions, power mechanics, narrative capture, and remainder. No crown; no mandatory interpreter.
Source spine	Myth as Fossilized Monkey Politics + Priesthood-Function. Treat this as a working matrix to patch, fork, and source-pass.

As a result, the model is able to capture the complex relationships between the variables and provide a more accurate prediction of the outcome. The model is trained on a dataset of 10,000 samples, and the results show that the model is able to predict the outcome with a high degree of accuracy.
